

## IMPORTANT NOTICE TO PURCHASER

## LIFETIME LIMITED WARRANTY For Certain Residential and Agricultural Uses

Venator Materials warrants to the original owner/occupant of the real estate upon which this product is used or to the original owner of any personal property into which this product is incorporated, that for the lifetime of such person, the SupaTimber® wood used in conjunction with a residential or agricultural structure will be free from such decay or termite damage as would make the wood structurally unfit for the purpose for which it was used. Only wood bearing the SupaTimber® Warranty Label is covered by this warranty, since only such wood has been treated by an authorized treater and is SupaTimber® wood. SupaTimber® products sold shall meet the physical standards and properties set forth in the applicable product specification as outlined by American Wood Protection Association (AWPA) Standards.

Venator Materials's only obligation under this warranty shall be to replace such quantity of SupaTimber® products proven to meet the aforementioned AWPA Standard, yet has become structurally unfit for its intended purpose. THIS WARRANTY DOES NOT COVER ANY REMOVAL, INSTALLATION, REINSTALLATION OR FREIGHT COSTS. THIS WARRANTY DOES NOT COVER WARPING, SPLITTING, TWISTING, CHECKING OR OTHER CHANGES IN THE SHAPE OF THE WOOD. THIS WARRANTY DOES NOT COVER DAMAGE TO SupaTimber® WOOD USED IN FOUNDATION SYSTEMS, OR IN PILING, POLE, OR HEAVY TIMBER TYPE RESIDENTIAL CONSTRUCTION, USED IN SWIMMING POOL SIDEWALLS OR IN WATER IMMERSION APPLICATIONS (EXCEPT RESIDENTIAL FRESHWATER DOCKS), USED AS ROUND OR PARTIALLY ROUND FENCE POSTS, PEELER CORE LANDSCAPE TIMBERS, VINEYARD STAKES, OR TREE SUPPORTS IN AGRICULTURAL APPLICATIONS, OR USED FOR ANY NON-RESIDENTIAL, COMMERCIAL, OR INDUSTRIAL PROJECT (OTHER THAN AGRICULTURAL STRUCTURES), OR DAMAGE RESULTING FROM ANY CAUSE OTHER THAN TERMITES OR DECAY.

THIS WARRANTY DOES NOT COVER INCIDENTAL OR CONSEQUENTIAL DAMAGES. VENATOR MATERIALS SHALL NOT BE LIABLE OR RESPONSIBLE FOR ANY LOSS, DAMAGE OR LIABILITY, DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL, ARISING OUT OF THE SALE, USE OR MISUSE OF, OR THE INABILITY TO USE, ITS PRODUCTS.

This warranty is void unless all cuts and bore holes are coated during construction with a suitable wood preservative accepted by and listed in AWPA Standard M-4.

**This warranty is extended only to the original owner/occupant of the real estate upon which this product is used or to the original owner of any personal property into which this product is incorporated. This warranty is not transferable to any future owner of real estate or such personal property. NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE SHALL EXTEND BEYOND THE PERIOD OF THE LIFETIME WARRANTY HEREIN.**

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitations of incidental damages, so the above limitations or exclusions may not apply to you.

The owner to whom this warranty is extended agrees to notify Venator Materials in writing at the following address: SupaTimber Claims 8001 IBM Drive, Charlotte, NC 28227, within ninety (90) days of first learning of a possible defect in the product which may lead to a claim under this warranty. The owner must give Venator Materials this notice before Venator Materials shall have any obligation under this warranty.

The owner to whom this warranty is extended must file any action against Venator Materials to enforce this warranty within one (1) year of first discovering any defect in the product upon which such action is based, and allow Venator Materials or its representatives to inspect the wood in its original installation.

You are advised that in order to make a claim under this warranty, you must present evidence of purchase AND the manufacturer's identification tag or ink stamp. Failure to use the product in accordance with instructions or restrictions printed on such identification tags voids this warranty.

The warranty gives you specific legal rights, and you also may have other rights which vary from state to state.

# Consumer Safety Information Sheet

Calif. Prop. 65 Warning!  
This wood contains chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.  
CHROMATED COPPER ARSENATE (CCA)

## INORGANIC ARSENICAL PRESSURE-TREATED WOOD (including CCA) CONSUMER INFORMATION

This wood has been preserved by pressure EPA registered pesticide containing inorganic arsenic to protect it from insect attack and decay. Wood treated with inorganic arsenic should be used only where such protection is important.

Inorganic arsenic penetrates deeply into and remains in the pressure treated wood for a long time. However, some chemical may migrate from treated wood into surrounding soil over time and may also be dislodged from the wood surface upon contact with skin. Exposure to inorganic arsenic may present certain hazards. Therefore, the following precautions should be taken both when handling the treated wood and in determining where to use or dispose of the treated wood.

### USE SITE PRECAUTIONS

All sawdust and construction debris should be cleaned up and disposed of after construction.

Do not use treated wood under circumstances where the preservative may become a component of food or animal feed. Examples of such sites would be use of mulch from recycled arsenic-treated wood, cutting boards, counter tops, animal bedding, and structures or containers for storing animal feed or human food.

Only treated wood that is visibly clean and free of surface residue should be used for patios, decks and walkways.

Do not use treated wood for construction of those portions of beehives which may come into contact with honey.

Treated wood should not be used where it may come into direct or indirect contact with drinking water, except for uses involving incidental contact such as docks and bridges.

### HANDLING PRECAUTIONS

Dispose of treated wood by ordinary trash collection. Treated wood should not be burned in open fires or in stoves, fireplaces, or residential boilers because toxic chemicals may be produced as part of the smoke and ashes. Treated wood from commercial or industrial use (e.g., construction sites) may be burned only in commercial or industrial incinerators or boilers in accordance with state and Federal regulations.

Avoid frequent or prolonged inhalation of sawdust from treated wood. When sawing, sanding and machining treated wood, wear a dust mask. Whenever possible, these operations should be performed outdoors to avoid indoor accumulations or airborne sawdust from treated wood.

Wear gloves when working with the wood. After working with the wood, and before eating, drinking, toileting, and use of tobacco products, wash exposed areas thoroughly.

Because preservatives or sawdust may accumulate on clothes, they should be laundered before reuse. Wash work clothes separately from other household clothing.

EPA-Restricted Use
